# School of PARA-MEDICAL AND ALLIED HEALTH SCIENCES

The pharmaceutical industry discovers, develops, produces, and markets drugs or pharmaceutical drugs for use as medications. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Pharmacy is the art and science of Manufacturing and dispensing drugs and biologicals to prevent or cure diseases there by preserving the health of humanity at large.

Indian Pharma graduates have a key role in developing new drugs in both Pre-clinical and clinical trails for testing critical diseases and for ensuring safety and efficacy for patients before release into market.
