About RIMT University

Since its establishment in 1998, RIMT has focused on aligning contemporary education with future needs. Over the years RIMT has become a diverse educational hub, attracting students globally and providing a serene environment for knowledge exchange. It is committed to preparing students for lifelong success by equipping them with practical life skills alongside traditional classroom learning. The university was established by the Government of Punjab (Punjab Act No. 31 of 2015), recognized by the UGC under section 2(f), and accredited by NAAC.

RIMT continually strives to promote research and innovative teaching, learning, and leadership practices, all centered around the theme of Integrating Disciplines to Shape a Sustainable Future.

Vision

The University's vision is to become one of the most preferred learning places and a centre of excellence to promote and nurture future leaders who would facilitate the desired change in the society.

Mission

To impart teaching and learning through cutting-edge technologies supported by the world class infrastructure with a view to empower and transform young minds into capable leaders and responsible citizens of India instilled with high ethical and moral values.

Conference Overview

The International Conference on Interdisciplinary Research for Sustainable Development (ICIRSD-2025) is envisioned as a premier global platform dedicated to exploring the critical synergy between diverse academic disciplines and the collective pursuit of a sustainable global future. Given the complexity of today's environmental, economic, and social challenges, isolated disciplinary efforts are insufficient. This conference is designed to be a crucial melting pot where scholars, researchers, industry leaders, and policymakers converge to integrate knowledge, methodologies, and innovations from science, technology, humanities, arts, and policy-making. ICIRSD-2025 aims to move beyond conventional research boundaries to formulate holistic and actionable solutions necessary to shape a truly sustainable world.
