# 5<sup>TH</sup> NATIONAL WORKSHOP

## ABOUT RIMT UNIVERSITY

Driven by a strong inclination to assign the futuristic parameters to given standards of education, RIMT experienced the greatest period of momentum in its history while adding a new institution every year since its inception in 1998. The legacy continued and RIMT University was established by Govt. of Punjab under 2 (f) section of the UGC. The vision of the University is to impart quality education and produce society worthy individuals. Our mission is to create extraordinary learning experiences for students. The University has embraced innovation and the entrepreneurial perspective. It encourages the staff and students to challenge conventions and explore new ways of learning. The university places great emphasis on continuous academic development and encourages research in different disciplines. It organizes workshops and training programmes to enhance the capability and skills of faculty and students. It is in this direction that a Five days programme on Research Methodology is being organized from 6th to 10th February 2024.

## ABOUT THE WORKSHOP

Data analysis and interpretation is an important step in research process. The data should be subjected to statistical tests of significance to determine with what validity data can be said to indicate any conclusion. Clearly the science of statistics cannot be ignored by any researcher, even though he may not have an occasion to use statistical methods in all their details and ramification.

## OBJECTIVES OF THE WORKSHOP:

The Participants will be able to

- Select appropriate research methods for conducting empirical research
- Select statistical tools for data analysis
- Construct and standardize research tools
- Enhance their analytical skills

## CONTENTS OF THE WORKSHOP

- Overview of Research
- Parametric and non-parametric statistics
- Literature review
- Experimental design including data design
