# 5<sup>TH</sup> NATIONAL WORKSHOP

## ABOUT THE DEPARTMENT

Doctoral Research Centre (DRC) came into existence as a separate entity in the year 2016. The department boasts of expert faculty and excellent infrastructure for teaching and research activities at Ph.D. levels. Based on its high-quality teaching and research, the department has been getting financial support for its growth under ICSSR for conducting Two-Week Capacity Building Programme (CBP) on research Methodology on 17-27, May, 2025.

Building on a successful track record that includes national-level workshops such as the 5th Workshop on Research Methodology (February 10-12, 2024), the 4th Workshop on Research Methodology (September 12-17, 2022), the 3rd Workshop on SPSS (April 13-18, 2022), and the 2nd Workshop on Data Analysis through SPSS (November 30, 2018), the department continues its initiatives by offering a Five-Day Hybrid Workshop in SPSS.

## ABOUT THE WORKSHOP

Data analysis and interpretation is an important step in research process. The data should be subjected to statistical tests of significance to determine with what validity data can be said to indicate any conclusion. Clearly the science of statistics cannot be ignored by any researcher, even though he may not have an occasion to use statistical methods in all their details and ramification.

## OBJECTIVES OF THE WORKSHOP

The Participants will be able to

- Select appropriate research methods for conducting empirical research
- Select statistical tools for data analysis
- Construct and standardize research tools
- Enhance their analytical skills

## CONTENTS OF THE WORKSHOP

- Overview of Research Parametric and non-parametric statistics
- Literature review
