Mode: Hybrid (Online & Offline)

Organized by:

Doctoral Research Centre (DRC)

RIMT University, Mandi Gobindgarh, Punjab

ABOUT RIMT UNIVERSITY

Established in 1998, RIMT University has consistently aligned contemporary educational paradigms with future global demands. Over the decades, RIMT has evolved into a premier, diverse educational hub that attracts students globally and provides a dynamic environment for rigorous knowledge exchange. The university is deeply committed to equipping students for lifelong success by blending traditional classroom learning with practical, real-world skills. Guided by the central theme of "Integrating Disciplines to Shape a Sustainable Future," RIMT continuously champions research, innovative pedagogy, and progressive leadership practices.

Vision

To become one of the most preferred learning places and a centre of excellence to promote and nurture future leaders who would facilitate the desired change in the society.

Mission:

To impart teaching and learning through cutting-edge technologies supported by the world class infrastructure with a view to empower and transform young minds into capable leaders and responsible citizens of India instilled with high ethical and moral values.

About The Doctoral Research Centre

The Doctoral Research Centre (DRC) is committed to advancing the boundaries of academic inquiry and research excellence. Ensuring robust ethical standards, DRC closely monitors scholar progress, oversees rigorous evaluations, and orchestrates academic compliance aligned with international publication norms. It serves as the intellectual hub for doctoral candidates driving impactful discoveries.

ABOUT THE CONFERENCE

The International Conference on Multi-Disciplinary Innovations & Next-Gen Technologies (Nov 27–28, 2026, Hybrid mode) is a premier intellectual convergence for global scholars, scientific innovators, and policy strategists.

In an era of unprecedented technological acceleration, isolated academic inquiry is no longer sufficient. Rooted in the epistemological imperatives of the 21st century, this conference dismantles traditional silos to explore our central theme: Advancing Interdisciplinary Paradigms: The Convergence of Next-Generation Technologies and Sustainable Development for Holistic Well-Being.
